Administrators: Google Workspace for Education and Quizlet

Google recently [announced updates](#) to Google Workspace for Education. To prevent interruptions for your users, administrators must review and confirm access settings for third-party configured apps, like Quizlet.

Take action by October 23, 2023

Follow the steps in Google's Help Center to [configure access permissions](#) within your Google Workspace specifically for users designated as under 18 or to [control access to Google services by age](#).

Common error messages

If users see the following error messages when attempting to access Quizlet, double-check your Google Workspace access configuration using the above-linked articles:

- Access blocked: Your institution's admin needs to review this app
- Error 400: access_not_configured
- Error 400: admin_policy_enforced
